

AMRUTHA REDDY GURUGARI

2600 Clifton Avenue, Cincinnati, OH 45221 | 657.618.8124 | gamruthareddy06@gmail.com | [linkedin](#)

PROFESSIONAL SUMMARY

Enthusiastic AI graduate Student With 4+ years Of full-Stack development experience. Passionate about building impactful applications mentoring future technologists, and advocating for reproducibility in research. Known for being a Collaborative team player, proactive learner, and tech Community leader.

TECHNICAL SKILLS

- **PROGRAMMING:** Python, JavaScript, SQL, R,C,C++
- **ML/AI:** TensorFlow, PyTorch, Neural Networks, Deep Learning, NLP
- **WEB:** React.js, Node.js, HTML, CSS, Bootstrap
- **CLOUD:** AWS, Docker
- **DATA:** Pandas, NumPy, MySQL
- **Core Strengths:** Leadership & Collaboration, Research Communication, Agile Teamwork

EDUCATION

[AUG 2024 - PRESENT]

University Of Cincinnati, Cincinnati

- **Degree:** Master's In Artificial Intelligence
- **Cumulative GPA:** 3.5/4.0

EXPERIENCE

[APR 2025 - PRESENT]

Reproducibility Research Advisor, University Of Cincinnati

- Deployed Dockerized RStudio environments, ensuring 100% reproducibility across 10+ RNA-Seq pipelines
- Reduced Workflow Setup time by 60% by resolving dependency conflicts in 15+ computational projects

Chairperson ACM Student Chapter, University Of Cincinnati

[APR 2025 - PRESENT]

- Led 25+ events annually, increasing participation by 45%
- Organize hackathons with 20+ participants from 9+ universities

Full Stack Developer, IB Hubs

[JAN 2020 - JUL 2024]

- Implemented 8+ React.js/Node.js apps serving 2,000+ users with 99.9% uptime
- Optimized performance by 35% through code refactoring and efficient algorithms
- Constructed REST APIs handling 10,000+ daily requests using Express.js and SQL

PROJECTS

[AUG 2024 - Nov 2024]

Neural Network vs Linear Regression, University of Cincinnati

- Achieved 15% accuracy improvement with neural networks, reduced MSE from 0.85 to 0.72

Single Cell RNA-Seq Analysis, University Of Cincinnati

[MAY 2024 - PRESENT]

- Built and automated a single-cell RNA-Seq pipeline processing 2,000+ data points, reducing analysis time by 70% and improving throughput for downstream gene expression analysis by 3x
- Collaborated with UI/UX designers and backend engineers in agile sprints to deliver fully tested releases biweekly

AI Web Application, IB Hubs

[MAR 2024 - JUN 2024]

- Created a machine learning web app for real-time image classification using TensorFlow.js
- Designed an AI-powered web application supporting 50+ real-time users, increasing user engagement by 40%; deployed on AWS achieving 99.8% uptime and <\$10/month in operating costs

LEADERSHIP & VOLUNTEER

[MAY 2025 - PRESENT]

Student Support Specialist, University of Cincinnati

- UC Disability Services
- Mentor 15+ students, improved academic performance by 25%
